Public Health Committee Members

My name is Pastor Brigitte Brown, and I reside at 214 Hart Street New Britain, CT 06052. I am a Pastor; Social Worker; Police Commissioner; Community Organizer; member of the Student Governance Council of Smalley Academy and the chairperson of the North-Oak Neighborhood Revitalization Zone. As you can see, I am very involved in my community and the surrounding cities. I also advocate, and have come across all types of people, who are affected by the current health disparities that exist.

The purpose of this letter is to ask if you can help with my efforts in supporting the Raised ~~158,425~~ An Act Establishing a basic health program. This bill is a step in the right direction, but we will continue to move our efforts into free healthcare for everyone. I want to be a voice for the percentage of people who do not have any healthcare and who cannot afford it. This bill will assist a certain portion of people who may not have healthcare, and this is why it is important for us to continue to fight for those individuals who will not qualify under this bill.

I appreciate all your help, and I hope that you can assist me in helping to pass the bill, which will allow this population of individuals to be healthy and assist in making this state better!

Thank you for your time and considering my request. I can be directly reached at 860-770-2495 or brabrick@yahoo.com

Sincerely,

Pastor Brigitte P. Brown, MSW
